

Who is Accountable for what in Scrum?

"Accountabilities define each member's contribution while leaving open how they do it."

Scrum Team

- · Creating a valuable, useful Increment every Sprint
- · Having all the skills necessary to create value each Sprint
- All work necessary to create the product

Product Owner

- Maximizing the value of the product
- Ensuring each Increment is valuable
- Effective Product Backlog management

- · Creating a usable Increment each Sprint
- · Creating a plan for the Sprint
- Instilling Quality through the Definition of Done

Scrum Master

- Establishing Scrum
- Scrum Team's effectiveness
